

Nursery Summer 2019 Summer Weather

Knowledge and Understanding of the World: Name animals and plants and learn how they grow, The Importance of the Bible for Christians and children's interests.

Personal and Social Development

Children will learn how to listen carefully to one another. Lola, our Leopard will help us in circle time.

Literacy: We will be reading our favourite books about Summer. We will become familiar with some words and begin to read simple sentences.

Mathematics: We will learn how to measure familiar objects using cubes, explore size using words such as tall, long and short, and explore capacity.

Expressive Arts and design: We will create observational pictures of plants and insects, play percussion-making up rhythms with instruments and sing animal songs. We will build stories around our toys.

Communication and Language: We will develop our ability to name a variety of plants and animals; building our vocabulary and try to give some explanations; answering 'why' and 'how'.

Physical Development: We will develop our team building skills using the parachute. We will develop our ability to hold scissors and cut. We will begin to form letters and become really good at writing our name!

Your children's interests are very important to us. We value your input and will always consider changing our plans to meet your child's needs. Come and talk to Mrs Harper or Mrs Brennan about your ideas!
