 $5+6=$   
 $7+4=$   
 $6+6=$   
 $8+4=$
- $10-2=$   
 $12-3=$   
 $15-5=$   
 $18-3=$   
 $20-6=$

If you had 6 sweets to share between you and your friend. You share them so you both have the same. How many sweets did you both get?

If you had 8 hearts to share between 2 friends, remember the friends have to have the same. How many would each friend have?

- Finish the repeating pattern

Draw 6 more shapes to repeat the pattern.

Make your own patterns using 2 or 3 colours or shapes.

**Remember to do your daily exercise – Jo Wicks or Cosmo kids yoga**
